If a required achievement, such as paper publication or completion of training, is not expected to be completed within the application period but is expected to be completed by the achievement recognition deadline for the relevant semester, you must submit a pre-application during the designated application period.

- Achievement recognition deadline: 1st semester : Aug. 31, 2026 / 2nd semester: Feb. 28, 2027
- At the time of pre-application: Submit documents verifying that the achievement is expected to be completed (e.g., a confirmation letter for planned paper publication).

- After completion of the achievement : Submit the final supporting documents (e.g., the published paper or certificate of completion) to the person in charge via email as soon as they are issued.

!Important Pre-application Check : Even if the achievement is scheduled to be completed after the application period, a pre-application cannot be submitted after the application deadline has passed. Therefore, you must complete the pre-application within the designated application period.

※ If the final supporting documents are not submitted by the deadline, or if the achievement is not completed by the recognition deadline for the relevant semester, the applicant will be excluded from support, and **any funds already provided may be recovered.**
